

2017-2021 Strategic Plan

Warton Keppel International Airport

Vision, Mission & Goal

- ▶ Vision: To become the Grey Bruce region's aviation hub offering exceptional service to leisure, corporate, business and recreational users.
- ▶ Mission: To contribute to and enhance the economic prosperity of regional businesses and leisure travellers by providing a runway to the world.
- ▶ Goal: To rebrand and market the airport to promote an increase in revenue by attracting new aviation related businesses, scheduled passenger service and air freight opportunities.

Values and Guiding Principles

► Integrity

- Maintain the highest current aviation standards
- Conduct business in an honest, fair, open and respectful manner by attending to responsibilities and fulfilling commitments
- Live up to responsibilities, meet objectives and fulfill our commitments
- Maintain credibility through communication with customers, employees and stakeholders
- Instill confidence in all who deal with our organization that we act with the highest moral and ethical standards

► Fiscal Responsibility

- Make sound financial decisions that balance the interests of the region, stakeholders and customers
- Make decisions that help enhance the economic vitality of the region

Values and Guiding Principles

► Innovation & Development

- Seek to create innovative solutions to attract and retain aviation related businesses and industry to ensure long term sustainability
- Set high standards in all aspects of the airport organization and focus on continuous improvement

► Environment

- Be responsive to environmental concerns of the regional communities
- Promote open and honest communication about environmental concerns
- Ensure high standards regarding environmental concerns/issues

Priorities

- Develop a rebranding strategy
- Engage partners to promote the airport
- Engage the First Nations communities
- Market the concept of “Charter Flights” through commercial tour operators
- Develop a master plan for hangar development
- Preparation of potential aviation business areas and services summary for future development
- Strive for financial self-sufficiency in the operations of the airport
- To position the airport to become part of the Southern Ontario Airport Network
- To continue to network with surrounding aerodromes to promote the aviation industry

Objectives

- Increase aviation revenue
- Increase non-aviation revenue
- Develop leadership
- Organizational excellence
- Continue to develop partnerships to promote aviation and business opportunities

Increase Aviation Revenue

- Secure year round Canadian Border Services Agency (CBSA) service
- Improve infrastructure
- Secure air service businesses
- Attract and secure aviation maintenance Services
- Market charter flight tours to professional tour operators
- Market the potential of the facility to accommodate excess capacity from southern and northern Ontario airports
- Develop marketing strategy including development potential scenarios
- Rebrand the facility to expose the potential to the aviation community and industry
- Investigate air freight services - including warehousing

Increase Non-Aviation Revenue

- Increase rental of airport space for events
- Increase tenants within existing terminal building to minimize empty office space
- Offer advertising opportunities
- Charge for parking
- Offer lease opportunities for tower space on facility owned towers
- Promote opportunities with rental car, taxi, limo service, and public transportation providers

Develop Partnerships

- Engage tourism partners to promote the airport
- Engage the business community to use the airport
- Work closely with economic development agencies to seek business and aviation industry related opportunities

Organizational Excellence

- Maintain safety standards
- Deliver effective communication
- Secure sustainable funding
- Investigate a governance model that ensures a proper and efficient management structure while maintaining arms-length from Township Council
- Continue to attract and retain qualified professionals to operate and maintain the airport
