I live at 131 Maple Ridge Crescent. I have a few concerns regarding the proposed development.

- 1) will there be appropriate drainage as those homes will sit higher than some on the crescent
- 2) will the farmer with property behind the lots still have access to the fields?
- 3) will there be limits on # of trees cut?
- 4) will damage to the road from truck traffic be repaired?
- 5) will the creek running through be preserved?
