Hi Jenn,

I received your mailing dated November 28 regarding Severance applications B24/22 & B25/22 and Zoning Amendment Z-18-22. We are unable to attend the meetings on January 17 & 18, but are very interested in being involved and in getting information. Your letter asked that we inform you by Dec 19th if we wanted to get information and preserve our appeal rights. So that is what I am doing with this note.

We are very concerned with anything that increases traffic on and around Francis Lake for several reasons including the fact that about 80% of the lake is under 4 feet in depth, much of it under 2 feet. Lake health and residence health is paramount. Our concerns are even heightened by the way the last development (Big Rock rd & Spencer Ave) was handled and it's resulting effects.

Thank you for your time. We may if feasible have our son attend the meetings on Jan 17 and 18.

Sincerely,  
Ross and Carol Weber  
226 Francis Drive
