The Calendar above is template showing how the training will work on a 4-week Training cycle. This is a layout subjects are just examples on this template. The Officers will work together with the topics to be covered and instructors teaching.

-Designate each of the Township's a Specific day of the week to train as per calendar above. (They stay training on those days)

- Keppel on Mondays
- Sarawak on Tuesdays
- Derby on Wednesdays
- Sydenham on Thursdays

- Have four stations set to train by, each township will do one station per training week until they have completed all four.

-Minimum of 2 Instructors per-training session. Instructors will move with their module they have been assigned to the next group. This will maintain continuity and the same message will be relayed. This will give us the ability to break into smaller groups within each training night.

-PPE will be minimum surgical mask, medicals gloves may be required during some evolutions.
